We are still working on some other ideas for at-home volunteering and would like to add at least one more event for June and maybe another February service project as well. Your ideas are welcome!

Youth in elementary school, middle school, high school and transitional school programs are welcome to join us. We encourage and welcome siblings and family members to volunteer with us too. Most of our projects in the community allow for volunteers of varied age and ability levels.

For more information, please contact John Krejcha, Program Director at:
